PROFESSIONAL SUMMARY

Physician (MBBS, BMDC-registered) and public health practitioner with over five years of clinical, humanitarian and digital health experience. Work spans maternal, newborn and child health (MNCH) programming, health-system strengthening, telemedicine and electronic health records, and donor-funded health projects across the Chittagong Hill Tracts (CHT) with the International Committee of the Red Cross (ICRC) and Save the Children/GRAUS in Bandarban. Directed a healthcare programme reaching 15,000+ individuals across Alikadam upazila and trained 50+ medical assistants and community health workers on infection prevention and control and case management. Skilled in on-site clinical mentoring of doctors, nurses, midwives and paramedics, identifying service-delivery gaps, and coordinating with government health systems and multidisciplinary teams. Currently **Senior Medical Officer** at the BRAC University Medical Center, leading a six-person clinical team and a daily caseload of 100+ patients while owning clinical protocols, referral pathways and emergency preparedness, and pursuing an MPH in Epidemiology at Bangladesh University of Professionals (BUP).

PROFESSIONAL EXPERIENCE

BRAC University

Dhaka, Bangladesh

Senior Medical Officer

July 2026 – Present

- Promoted to lead the university Medical Center, overseeing clinical services for students, faculty and residential staff.
- Lead a team of six medical officers, nurses and support staff, including duty rosters, supervision and mentoring.
- Oversee a caseload of 100+ patients daily while maintaining direct consultation duties.
- Conduct drug-of-abuse (DOPE) screening tests as part of clinical assessments.
- Verify water quality testing at the residential campus, supporting environmental health and safety compliance.
- Provide on-site medical standby coverage during university sports day events, delivering emergency and first-aid response for student-athletes.
- Own clinical protocols, referral pathways and emergency preparedness for the residential campus.

Medical Officer

February 2023 – June 2026

- Prescribed medications for 100+ students and staff daily with full adherence to healthcare protocols.
- Evaluated and certified medical documents in line with institutional policies.
- Responded to on-campus medical emergencies, stabilising critical patients before referral.
- Supervised and mentored nurses and support staff.

mPower Social

Dhaka, Bangladesh

Telemedicine Consultant

March 2022 – October 2022

- Delivered telemedicine consultations to 30–50 patients daily, reaching underserved communities.
- Analysed patient medical records to ensure secure, effective remote care.
- Used advanced telecommunication tools to improve healthcare accessibility across regions.

Gram Unnayan Sangathon (GRAUS), with Save the Children

Bandarban, Bangladesh

Medical Officer

December 2020 – June 2021

- Directed healthcare programmes serving 15,000+ individuals across the upazila.
- Strengthened facility safety through routine inspections and enforcement of infection-control policy.
- Trained and mentored 50+ medical assistants and community health workers on IPC and COVID-19 management protocols, coaching frontline staff on correct clinical practice.
- Managed daily clinic operations and regulatory compliance.

International Committee of the Red Cross (ICRC)

Bandarban, Bangladesh

Medical Officer

July 2020 – November 2020

- Conducted outpatient consultations for 500+ patients monthly across host and Rohingya communities.
- Coordinated with government health staff on joint community outreach programmes.
- Implemented maternal and child health initiatives, improving community health outcomes.
- Streamlined medical inventory management to keep essential supplies consistently available.

Emanuel Medical Center

Bandarban, Bangladesh

Resident Medical Officer

January 2020 – April 2020
