

Dr. Uzzal Chandra Tangchangya

SENIOR MEDICAL OFFICER · MBBS

BRAC University Residential Campus, Dhaka, Bangladesh +880 1608 365534 dr.uzzaltang@gmail.com
BMDC Reg. No. A100133

PROFESSIONAL SUMMARY

A general physician with over five years of experience across local and international organizations including BRAC, Save the Children and the ICRC, and a strong commitment to public health. Promoted to **Senior Medical Officer** at the Medical Center of BRAC University Residential Campus in July 2026, after leading day-to-day clinical services there since 2023. Previously led a team of nurses, medical assistants and community health workers at Alikadam Upazila Health Complex during the COVID-19 pandemic — a project implemented by Gram Unnayan Sangathan (GRAUS) with Save the Children — supporting the complex with medicines and instruments, facilitating IPC and COVID management training for doctors and staff, running community health education programmes and serving almost 15,000 patients. That work deepened an interest in epidemiology and public health, now being pursued through the MPH programme at Bangladesh University of Professionals (BUP) to more effectively address global health issues.

PUBLIC HEALTH INTERESTS

Epidemiology and outbreak response; primary healthcare delivery in remote and hard-to-reach communities, particularly the Chittagong Hill Tracts; and health service delivery in humanitarian settings.

PROFESSIONAL EXPERIENCE

BRAC University	Dhaka, Bangladesh
Senior Medical Officer	July 2026 – Present

- Promoted to lead the university Medical Center, overseeing clinical services for students, faculty and residential staff.
- Lead a team of 6 — medical officers, nurses and support staff — including duty rosters, supervision and mentoring.
- Oversee a caseload of 100+ patients daily while maintaining direct consultation duties.
- Own clinical protocols, referral pathways and emergency preparedness for the residential campus.

Medical Officer	February 2023 – June 2026
------------------------	---------------------------

- Prescribed medications for 100+ students and staff daily with full adherence to healthcare protocols.
- Evaluated and certified medical documents in line with institutional policies.
- Responded to on-campus medical emergencies, stabilizing critical patients before referral.
- Supervised and mentored nurses and support staff.

mPower Social

Dhaka, Bangladesh

Telemedicine Consultant

March 2022 – October 2022

- Delivered telemedicine consultations to 30–50 patients daily, reaching underserved communities.
- Analyzed patient medical records to ensure secure, effective remote care.
- Used advanced telecommunication tools to improve healthcare accessibility across regions.

Gram Unnayan Sangathon (GRAUS), with Save the Children

Bandarban, Bangladesh

Medical Officer

December 2020 – June 2021

- Directed healthcare programmes serving over 15,000 individuals across the upazila.
- Strengthened facility safety through routine inspections and enforcement of infection-control policy.
- Trained 50+ medical assistants and community health workers on IPC and COVID-19 management protocols.
- Managed daily clinic operations and regulatory compliance.

International Committee of the Red Cross (ICRC)

Bandarban, Bangladesh

Medical Officer

July 2020 – November 2020

- Conducted outpatient consultations for 500+ patients monthly across host and Rohingya communities.
- Coordinated with government health staff on joint community outreach programmes.
- Implemented maternal and child health initiatives, improving community health outcomes.
- Streamlined medical inventory management to keep essential supplies consistently available.

Emanuel Medical Center

Bandarban, Bangladesh

Resident Medical Officer

January 2020 – April 2020

- Performed diagnostic assessments including X-rays, ultrasounds and laboratory tests.
- Counselling patients on conditions, treatment plans and preventive care.
- Assisted in major surgical procedures and independently conducted minor surgeries.
